**VINEYARDS:** The grapes come from the estate vineyards in Villa Alegre, 285 km south of Santiago in the Maule Valley. The soils are derived from volcanic ash and consist of sandy to sandy-loam earth. The vineyards are flat and receive an excellent exposure to sunlight. The yields are carefully controlled to produce concentrated and elegant wines.

**CLIMATE:** The Villa Alegre region of Chile has a Mediterranean-style climate. Winter rains are plentiful and summers are dry with marked temperature variations between day and night, thereby allowing the grapes to obtain superb tannin development as well as excellent aromas and color concentration.

**VINIFICATION:** The grapes are harvested by hand early in the morning the first day of March. We only use low pressure to ferment in stainless steel tanks with select yeast at temperatures ranging from 12 to 14 °C during a twenty-day period to extract the aromas of the varietals. Prior to bottling, the wines are stabilized and filtered carefully to keep all the fruit.

**TASTING NOTES:** Light yellow color with greenish tones. Its prominent aromas of lime, grapefruit and gooseberry fruit blend harmoniously with floral notes. The taste is crispy, refreshing and long.

**FOOD PAIRING:** It matches with appetizers, ceviche, seafood and green salads.

**SERVING TEMPERATURE:** 12-13 °C.
